

HELMİ LAKHDER

ABOUT

I am currently a second-year IOT student., I am constantly learning and updating my skills to stay up-to-date with the latest technologies and trends in the industry, and deeply passionate about building backend systems and solving problems, I thoroughly enjoy working with various data structures, including arrays, linked lists, stacks, queues, trees, and graphs.

ACADEMIC PROJCTS

SocialNetworkingWebsite

MARCH 2023 - APRIL 2023

HMKSOCIALHUB is a social networking website where users can register, log in, and edit their profiles. They need a valid username, email address, profile picture, bio, and location. The site has an admin role for CRUD operations and managing user profiles. Users can follow others, search for users with keywords, and see and like posts.

The website is built with Django, Python, and uses PostgreSQL & Cloudinary for data storage.
